

Eudigest Pancia Piatta

14.00 EUR

30 TABLETS

Stress, tiredness and a hasty diet can negatively affect digestion, causing abdominal bloating. Eudigest® Pancia Piatta contains Enzim-Active, an enzymatic complex with Fermented Rice Starch, Bromelain and Alpha-Galactosidase, this last one useful to help the absorption of complex carbohydrates that are present in food, reducing fermentation and hindering the excessive formation of gas in the abdomen. The formulation is completed by Ginger that, together with Fennel and Melissa extracts, contributes to a good digestive function, regularizing intestinal motility and eliminating gases.

WHEN TO USE

To promote digestion and prevent the formation of intestinal gas.

HOW TO USE

1-2 Tablets before meals.

WHAT IT CONTAINS

Enzim-Active: enzymatic complex with Fermented Rice Starch, Bromelain and Alpha-Galactosidase, Fennel fruit, Ginger rhizome, Melissa leaves.
