30 GASTRO-RESISTANT TABLETS

3 SOURCES OF ORGANIC IRON,
3 RELEASE TIMES
FOR BETTER ABSORPTION WITHOUT GASTRIC PROBLEMS

FerPlus Tre-Tard 30mg is a high-dosage Iron supplement in gradual release gastro-resistant tablets. The gastro-resistant format makes the product without the characteristic Iron taste and preserves from the gastric problems that are often associated with the uptake of this mineral.

Together with the 3 forms of Iron (bisglycinate, pidolate and fumarate), the innovative controlled-release three-stage technology allows its gradual absorption over the whole day and therefore better use by the body.

Together with Vitamin B12 and Folic Acid, Iron contributes to the formation of red blood cells, the reduction of tiredness and fatigue and the normal function of the immune system; vitamin C increases Iron absorption.

Iron is a mineral vital to the proper function of the whole body. When there is not enough, tiredness and fatigue are felt.

Iron is a vital element for the body, plays a role in the cell division process, contributes to transport

oxygen to the tissues and energy metabolism. Lack of iron is one of the most common deficiencies, above all in women of childbearing age, pregnant or breastfeeding and manifests itself with weakness, tiredness and fatigue. Other conditions of increased need are intense sports activity, vegan and vegetarian diets.

The iron absorption is greater the more the body needs it. However, not all the iron taken orally is absorbed, so a staggered administration over time may be advantageous, in small quantities to maximize absorption.

WHEN TO USE IT

It is recommended in case of iron deficiency and in cases of increased need, such as periods of tiredness in general, during the menstrual cycle or pregnancy and while breastfeeding.

HOW TO USE IT

1 tablet a day with a little water or other liquid, preferably on an empty stomach.

WHAT IT CONTAINS

Iron from three organic sources with Vitamin C, B12, Folic Acid and Beta-carotene.

NOTE

No Gluten or Lactose. Suitable to vegans.

Formulazione: Average Content	1 tablet	%VNR*
Iron of which	30,00 mg	214,30
