

## Cell-Plus Linfodestock

23.00 EUR

500 ML

Linfodestock Cell-Plus® is a supplement that promotes body weight balance, thanks to the presence of Green Tea and Moringa, and counteracts the imperfections of cellulite, thanks to Pineapple and Centella. It also contains Linfodrenyl (a mixture of extracts of Sweet Clover, Pinosella and Phyllanthus niruri) and Birch extract which reduce excess liquids.

Moringa oleifera, also known as “miraculous plant”, is present in the formula with the extract of both the leaves, rich in amino acids, and of the seeds, rich in fatty acids and phytosterols, effective to promote body weight balance and stimulate the metabolism of lipids.

Sweet clover is useful to promote microcirculation. Pineapple and Centella counteract the skin imperfections typical of cellulite, while Green Tea, thanks to its thermogenic action, contributes together with Moringa, to body weight balance. The presence of Birch, Green Tea and Pinosella, finally, favours the elimination of excess liquids.

Therefore, Linfodestock Cell-Plus® destocks and drains, in a single formula to drink, with a pleasant pineapple taste.

### WHEN TO USE IT

To counteract the skin imperfections of cellulite and promote drainage of excess fluids, promoting body weight balance.

### HOW TO USE IT

2 scoops in 1 litre of water; drink during the day between meals. 1 scoop in a glass of water twice a day: one in the morning as soon as you wake up and one in the afternoon or in the evening, better if away from meals.
